

North Dakota 2008 Airline Service Charts

Airport Service Areas

A

Most of the state's citizens live within a commercial airport service area as shown above on Chart A. Citizens who live outside the cities served by an airline benefit from scheduled service and air cargo activities. Citizens in outlying communities can access air service using the state's highway or transit system.

Each public airport facility has a service area extending beyond the community, and in some locations, into Canada or surrounding states. Communities are aware of the airport competition for passengers in their service area and provide marketing initiatives to fly from a North Dakota airport. Erosion or leakage may occur to non-ND airports; however, "fly local" promotion is important to sustaining or improving existing airline service.
